pH value (1 : 10):	approx. 7
Acid stability:	excellent
Salt stability:	excellent
Chrome stability:	excellent
Light fastness:	excellent
Heat yellowing:	medium

Properties:

TRUPON TTX is a highly effective fatliquor for the production of light, fluffy clothing and softy leathers.

Leathers fatliquored with **TRUPON TTX** exhibit outstanding inner softness coupled with extremely fine grain characteristics and a pleasant round handle.

TRUPON TTX will help to level anionic dyeings through its dispersing and penetrating properties.

Application:

TRUPON TTX can be used alone or in combination with other fatliquors depending upon the type of leather required.

Quantities to be used depend upon the degree of softness required, but will normally vary

between 6 - 12 %, based on shaved weight.

Safety and storage:

When handling **TRUPON TTX**, normal safety precautions associated with the handling of chemicals should be observed. For more specific details please refer to our safety data sheets.

TRUPON TTX can be stored for up to 18 months, if temperatures below 5 °C and above 40 °C can be avoided. On prolonged storage or extremes of temperature **TRUPON TTX** may exhibit some settlement which can be rectified by either warming and/or stirring the product thoroughly before use.
