

TRUPOSOL[®] MAX

highly softening fatliquor for upholstery, automobile and clothing leathers

Basis:	sulphited readily renewable raw materials
Appearance:	red brown viscous oil
Charge:	anionic
Active matter:	approx. 90 %
pH value(1 : 10):	approx. 7.5
Acid stability:	medium
Salt stability:	medium
Chrome stability:	low
Light fastness:	good
Heat yellowing:	good

Properties:

TRUPOSOL MAX is a fish oil free fatliquor designed for use in a wide range of articles.

Leathers fatliquored with **TRUPOSOL MAX** exhibit outstanding inner softness coupled with extremely fine grain characteristics and a pleasant round handle.

TRUPOSOL MAX possesses excellent fogging values and is therefore an ideal fatliquor for use in the production of automotive upholstery leather.

Due to the extremely high active matter of **TRUPOSOL MAX**, economy of use is guaranteed, whilst facilitating excellent softening properties to be achieved.

Application:

TRUPOSOL MAX can be used alone or in combination with other anionic fatliquors depending upon the type of leather required.

TRUPOSOL MAX should be prepared for use by adding it to a minimum of five times its own volume of water at 50 °C whilst stirring.

Quantities to be used will vary depending upon the type and softness of the leather required.

Safety and storage:

When handling **TRUPOSOL MAX**, normal safety precautions associated with the handling of chemicals should be observed. For more specific details please refer to our safety data sheets.

TRUPOSOL MAX can be stored for up to 18 months, if temperatures below 5 °C and above 40 °C can be avoided. On prolonged storage or extremes of temperature **TRUPOSOL MAX** may exhibit some settlement which can be rectified by either warming and/or stirring the product thoroughly before use.
